

PRESS RELEASE

Palm Bay, FL - October 1, 2007

ONPOINT SOLUTIONS GROUP, INC. TO SPONSOR THE U.S. CENSUS BUREAU, FOREIGN TRADE DIVISION, AES BRANCH ON NATIONWIDE MANDATORY AES TRAINING

Kathryn Toomey, Founder and President of OnPoint Solutions Group, Inc. (OnPoint), a full service trade compliance solutions provider, is the first commercial entity to fully sponsor the U.S. Census Bureau, Foreign Trade Division, AES Branch on the upcoming Mandatory AES.

As Vice President of the Space Coast World Trade Council (SCWTC), Kathryn has been conducting AESPCLink workshops for the Council over the past few years with overwhelming success, sold out seats and waiting lists. Companies from across the nation have contacted the SCWTC to conduct AESPCLink events in their communities. Since the SCWTC's charter is localized to Central Florida, and with the U.S. Census Bureau's non-existent budget for nationwide training on Mandatory AES, Kathryn developed a creative solution that would help Census achieve their educational outreach training goals on the mandatory AES *and* satisfy industry needs. The result was an OnPoint sponsorship for Census with OnPoint's co-instruction.

Kathryn listened to the concerns of industry exporters and users regarding the availability to find affordable AES training. Typically, the fees for regulatory training on the Foreign Trade Regulations range between \$225 - \$299 per person with the AESPCLink workshop costing an additional fee of \$60 - \$80 per person. For an individual to receive training on both would cost between \$ 285 - \$380. Most companies not already utilizing AES have not done so because of the steep cost.

With Kathryn's background in AES, regulatory compliance and her real-world practitioner experience, she developed a hybrid course that combined both training programs in a format easily understandable and cost effective for participants. In the hybrid program, the Census Bureau will provide an AES Representative to instruct the AES software application and OnPoint will instruct and address the regulatory issues. Fees for this hybrid course will range from \$79 - \$100 per person for a ½ day event. In addition, OnPoint will provide each attendee with complimentary, practitioner based regulatory training after course completion. OnPoint will provide this service as a courtesy to the industry and to help Census with the anticipated large volume of inquiries as anticipated AES mandate becomes a reality.

The nationwide AES training tour will begin in January 2008 and last through April 2008 with a schedule consisting of 32 sessions in 14 cities. Cities on the schedule include: San Jose, San Francisco, San Diego, Los Angeles, Houston, Miami, Atlanta, Orlando, Newark, Boston, Chicago, Milwaukee, Denver, and Seattle. Future locations may include Portland, Minneapolis, Charlotte,

Laredo, Phoenix, Portland, and New Orleans. It is expected that nearly 800 participants will receive the OnPoint/Census training.

Kathryn Toomey, President of OnPoint Solutions Group, Inc., is a member of the Society for International Affairs, Society For Human Resources, various defense organizations, and an avid volunteer for numerous charities throughout the community. For more information on how OnPoint can help your company navigate and comply with the import and export trade regulations, please contact Kathryn Toomey at 321-733-6550, ktoomey100@gmail.com or visit our website at www.onpointsolutionsgroup.com.
